

Annex A

Proposed Airworthiness Directive General Series – Retrospective Passenger Shoulder Harness

INTENTIONALLY LEFT BLANK

Airworthiness Directive General Series

AD/GEN/#	Retrospective Passenger Shoulder Harness	###/###
Applicability:	All aircraft other than lighter-than-air aircraft with a maximum take-off weight not greater than 5700kg which are used to carry fare-paying passengers.	
Requirement:	<p>If not already accomplished:</p> <ol style="list-style-type: none"> 1. Install an approved safety belt and shoulder harness at each seat that is to be occupied during take-off or landing. 2. Install a placard prohibiting occupancy during take-off or landing for seats that are fitted with only a safety belt (lap belt). 	
Compliance:	Before 12 months after <i>date</i>	
Background:	In severe but potentially survivable impacts, passengers have received fatal injuries when restrained by a lap belt only.
